FAN & HOME APPLIANCES
PRODUCT CATALOGUE

2025

Introduction

Everything began with a dream to make comfort a reality with passion, diligence, commitment and honesty. We created wonderful things for a better world. We began with the switches, moving on to automation, progressively towards Wire & Cable and, gradually touching every metaphor of a good smart home and now we are proud to introduce Ceiling fans & Appliances that will carry you to the kingdom 

With a proper research in design and material,  Fan range has grown with the design aesthetic of clean lines, correct proportions and a less-is-more philosophy. We use crisp, precision metalwork by artisans with tremendous experience in the industry. We believe in sustainability based on the simple premise that if something is well made and beautiful it will have a long and useful life.
